

## VEGAPULS WL 61

### Foundation Fieldbus

#### Radar sensor for continuous level measurement of water and wastewater

#### Application area

The VEGAPULS WL 61 is the ideal sensor for all applications in water and sewage water applications. It is particularly suitable for use in water processing, pump stations as well as overflow basins, for flow measurement in open flumes and gauge monitoring. The VEGAPULS WL 61 is an economical solution through versatile and simple mounting options. The flood-proof IP 68 housing ensures a maintenance-free permanent operation.

#### Your benefit

- Maintenance-free operation thanks to non-contact measuring principle
- High plant availability, because wear and maintenance free
- Exact measuring results independent of product, process and ambient conditions

#### Function

The sensor emits extremely short microwave pulses through the antenna. The emitted signal is reflected by the medium and received as an echo by the antenna.

The time between the emitted and received signal is proportional to the distance and depends from the filling height. The determined filling height is converted into a respective output signal and outputted as measured value.

#### Technical data

Measuring range up to	15 m (49.21 ft)
Deviation	±2 mm
Process fitting	Thread G1½, mounting strap, compression flanges from DN 80, 3"
Process pressure	-1 ... +2 bar/-100 ... +200 kPa (-14.5 ... +29.0 psig)
Process temperature	-40 ... +80 °C (-40 ... +176 °F)
Ambient, storage and transport temperature	-40 ... +80 °C (-40 ... +176 °F)
Operating voltage	9 ... 32 V DC

#### Materials

The wetted parts of the instrument are made of Valox PBT or PP. The process seal is made of FPM. The connection cable is PUR insulated. You will find a complete overview of the available materials and seals in the "Configurator" at [www.vega.com](http://www.vega.com) and "VEGA Tools".

#### Housing versions

The housing is optimized for applications in the waste water industry and manufactured of Valox PBT. Due to the encapsulated cable gland, protection rating IP 68 (2 bar) is achieved.

#### Electronics versions

The instruments are available in different electronics versions. Apart from the two-wire electronics with 4 ... 20 mA/HART, two purely digital versions with Profibus PA and Foundation Fieldbus are possible.

#### Approvals

The instruments are suitable for use in hazardous areas and are approved, for example, according to ATEX and IEC.

You can find detailed information at [www.vega.com/downloads](http://www.vega.com/downloads) and "Approvals".

### Adjustment

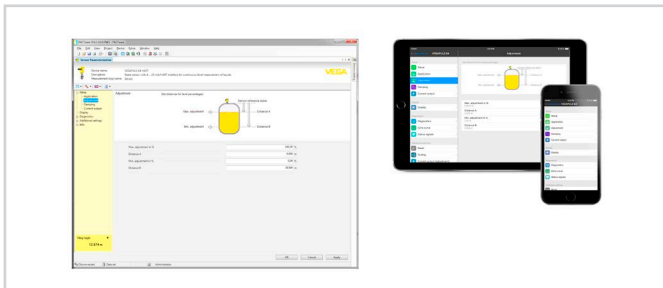

#### Wireless adjustment via Bluetooth

The Bluetooth version of the instrument enables a wireless connection to standard adjustment units. This can be smartphones/tablets with iOS or Android operating system or PCs with PACTware and Bluetooth USB adapter.

Wireless connection to standard operating devices

Adjustment is hence carried out via a free-of-charge app from the Apple App Store or the Google Play Store or the adjustment software PACTware and respective DTM.

Adjustment via PACTware or app

#### Adjustment via remote systems

An alternative adjustment possibility is a configuration tool for Foundation Fieldbus instruments.

### Electrical connection

Wire assignment in permanently connected connection cable

- 1 Brown (+) and blue (-) to power supply or to the processing system
- 2 Shielding

You can find details on electrical connection in the instrument operating instructions at [www.vega.com/downloads](http://www.vega.com/downloads).

### Dimensions

Dimensions VEGAPULS WL 61

- 1 Mounting strap
- 2 Adapter flange

### Information

You can find further information about the VEGA product line on [www.vega.com](http://www.vega.com).

In the download section at [www.vega.com/downloads](http://www.vega.com/downloads) you'll find operating instructions, product information, brochures, approval documents, instrument drawings and much, much more.

There, you will also find GSD and EDD files for Profibus PA systems as well as DD and CFF files for Foundation Fieldbus systems.

### Instrument selection

With the "Finder" at [www.vega.com](http://www.vega.com) and "VEGA Tools" you can select the most suitable measuring principle for your application. You can find detailed information on the instrument versions in the "Configurator" at [www.vega.com](http://www.vega.com) and "VEGA Tools".

### Contact

You can find the VEGA agency serving your area on our homepage [www.vega.com](http://www.vega.com).
