

Pressure Transmitter DP 331

Piezoresistive stainless steel sensor

Industrial sensor for low pressure

- Nominal pressure: 0 ... 100 mbar up to 0 ... 60 bar
- Accuracy: 0.1 / 0.25 / 0.35 %
- Flush pressure port G 1/2" from 100 mbar
- Excellent thermal behavior
- Excellent accuracy

Pressure Transmitter DP 331

Piezoresistive stainless steel sensor
Industrial sensor for low pressure

The pressure transmitter DP 331 can be used in all industrial areas when the medium is compatible with stainless steel 1.4404 (316 L) or 1.4435 (316 L). Additional are different elastomer seals as well as a helium tested welded version available.

The modular concept of the device allows to combine different stainless steel sensors and electronic modules with a variety of electrical and mechanical versions. Thus a diversity of variations is created, meeting almost all requirements in industrial applications.

Operating principle

The DP 331 is a pressure transmitter for universal applications in all industrial areas. Suitable measuring media are compressed air, non-aggressive gases, steam, water, heating and diesel oil, as well as all media compatible with stainless steel 1.4571 or 1.4435.

A piezoresistive stainless steel sensor with a low temperature error and very good long-term stability forms the basis of the DP 331, which makes it possible to meet accuracy requirements of up to 0.1% FSO according to IEC 60770.

A wide range of standardized output signals as well as mechanical and electrical connection variants cover almost all practical applications. It is also possible to use the DP 331 in potentially explosive areas from zone 0/20.

Features

- Nominal pressure: 0 ... 100 mbar up to 0 ... 60 bar
- Accuracy: 0.1 / 0.25 / 0.35 %
- Flush pressure port G 1/2" from 100 mbar
- Excellent thermal behavior
- Excellent accuracy

Optional features

- IS-version
- Ex ia = intrinsically safe for gases and dusts
- SIL 2
- According to IEC 61508 / IEC 61511
- Pressure sensor welded
- Customer specific versions

Media

- Fuels and oils
- Water
- Gases

Preferred areas of use

- Mechanical and plant engineering
- Energy industry
- HVAC
- Environmental industry
